

RUGGED RIDGE® SPARTAN FRONT BUMPER *PREMIUM STYLE, AFFORDABLE PRICE!*

Rugged Ridge® engineered the Spartan Series Bumpers for the Jeep enthusiast that wants the look of a classic off-road style bumper without the extra weight and heavy price tag. The Spartan Front Bumpers one-piece design is available with standard or high clearance ends. Each bumper is built from high-strength plate steel that utilizes fold & weld construction for greater structural integrity, precise fit and a high-quality appearance. A rugged textured black powder coat resists rust and corrosion keeping your Spartan bumper looking and performing great for years to come. Each bumper includes a stand-alone winch plate, D-shackle mounts and the option of a tubular override to complete the package (D-rings not included). The Spartan Front Bumper is a direct bolt-on replacement for 2007-2018 Wrangler JK models and includes all the necessary hardware for a worry-free installation. The Spartan even utilizes the factory JK fog lights for a finished look without any extra expense. Best of all, it's backed by our industry-leading 5 year limited warranty, making it the best-built, budget-minded bumper on the market today. **Patent Pending.**

RUGGED RIDGE® GEN 2 ALL-TERRAIN FENDER LINER KIT

The Gen 2 All-Terrain Fender Liner Kit is designed specifically for use with Rugged Ridge® Armor Fenders, eliminating the need to trim and modify your OE fender liners. Built from a nearly indestructible HDPE thermoplastic, the Gen 2 All-Terrain Fender Liners are strong enough to stand up to the punishing conditions of off-road use and abuse. Each fender liner kit includes both front and rear fender liners as well as all the necessary retainers and hardware for installation. Recommended for use in combination with all Rugged Ridge Armor Fender, Hurricane Flat flares and All-Terrain Flare installations for a clean and simple install. Also available with the XHD Armor Fenders as a kit.

RUGGED RIDGE® XHD STEEL CORNER GUARDS

"An ounce of prevention is worth a pound of cure" is the name of the game when it comes to trail armor. Finding out how vulnerable your JK's rear corners are by smashing your tail light firmly into a tree is more than enough to ruin your weekend, especially when the cure comes at great expense from your local body shop. Don't be the one to find out the hard way when Rugged Ridge® XHD Corner Guards are purpose-built to protect your factory sheet metal from threats on and off-road. We tooled our corner guards from super-strong 3mm thick steel plate and molded it to match the contours of your Jeep and then treated each guard to a heavy duty textured black powder coat that resists rock chips, rust and corrosion; thus proving that the best offense is a bulletproof defense. Better yet, unlike many of our competitors, XHD Corner Guards fully surround your Jeeps tail lights, shielding from direct impacts that crush lesser corner armor. Available for 2007-2018 Wrangler JK 2-Door (11615.21) and 4-Door (11615.20) models. XHD Corner Guards work with all factory components, as well as most aftermarket flares & accessories. **Patent Pending.**

RUGGED RIDGE® MONTANA BOWLESS TOP

The Rugged Ridge® Montana Top is the most versatile Jeep® soft top on the market today- combining the stunning fastback styling of a bowless top with the built-in ability to go from a fully-enclosed top to a summer brief in an instant! Best of all, no more unsightly top frame to block your view. The Montana Bowless Top fits snugly over the factory roll bar and works with your factory door surrounds and tailgate bar, delivering a uniform air-tight fitment with an aerodynamic style all its own. Converting to a stylish summer top is as easy as unzipping the rear windows and storing them in the rear window storage fold that is designed into the top. The Montana Bowless Top is made to the same strict quality standards as our factory replacement soft tops, with reinforced stitching on heavy "pull" areas, as well as heavy-duty 30 mil thick DOT approved 31% tint window glass, durable vinyl-coated polyester and cotton fabrics, and seams stitched entirely using marine grade thread to resist fading and deterioration from extended exposure to the elements.
