WE MAKE JEEPS ROCK

ARMOR FENDERS

Rugged Ridge JK Armor Fenders represent some of the most extreme off-road styling that has ever been offered for the Wrangler JK. Rest assured that our Engineers left any elements of subtlety on the cutting room floor when they developed the Armor Fenders. Aggressive lines and high wheel arches give the JK a whole new attitude that begs to be taken off-road. Sturdy all-steel construction with welded seams and a heavy textured black powder coat makes these fenders capable of absorbing abuse while delivering head-turning good looks. Front fenders are narrower than stock for greater clearance and feature stylized vents at the rear to aid in venting engine compartment heat. The rear fenders 2-piece design fully encloses the tail lights for the ultimate in protection. Rugged Ridge Armor Fenders are designed to work with factory components as well as the Rugged Ridge Spartan Grill, Hood Latches, Elite Fuel Doors, modular snorkel and even Rubicon Rock Rails. Installation uses the factory inner wheel liners or our Rugged Ridge All-Terrain Wheel Liners (11620.50), with minor trimming required. Patent Pending.

Armor Fenders	Part #
07-16 Wrangler, Front	11615.01
07-16 Wrangler, 4-Door, Rear	11615.02

HOOD MOUNT OFF-ROAD JACK HOLDER

The only thing more important than having an off-road jack on your Jeep® is being able to access it when the need arises. That's why we designed the Rugged Ridge® Off-Road Jack Hood Mounting Brackets to store your jack in a safe, secure place that is accessible to you, regardless of your vehicles positioning. We developed these jack mounts to be lightweight but sturdy by building them from high-strength 6061 T6 aluminum and treated to a durable textured black powder-coat to keep them looking great for years of trail duty. Your off-road jack is kept safely contained with large thumb screws that can be easily removed and installed, even while wearing gloves. Rugged Ridge Off-Road Jack Hood Mounting Brackets look great as well with a skeleton style design and laser-etched logo. All mounting hardware and protective gaskets are included for a smooth trouble-free installation

Hood Mount Off Road Jack Holder	Part #

97-06 Wrangler, TJ/LJ, Non-locking	11586.05

Stinger & Stinger Guard

STINGER GUARD

The Rugged Ridge XHD Stinger Guard is the ideal complement to the XHD Stinger (11540.13). Constructed of high-strength stamped steel, the guard is contoured to match the dimensions of the XHD Stinger, adding a muscular, off-road accent to the XHD bumper. Finished with a durable textured black powder coat, the Stinger Guard allows full use of the winch retaining hook when properly installed. Each Guard receives eight elongated relief cuts on the primary panel that allow for increased airflow while still protecting the radiator and grill from off-road hazards.

Stinger Guard	Part #
For Rugged Ridge Stingers	11540.29

ALUMINUM HOOD CATCH

Is your hood fluttering while driving? This could be a sign that it is time to replace your hood catch. The Rugged Ridge Aluminum Hood Catches are built as a stronger direct replacement for the OE catches that degrade and fail after years of use. These hood catch kits are adjustable, durable and aesthetically pleasing. The adjustable tension rod guarantees a precise fit. Installation is a breeze for any do-it-yourselfer with basic hand tools; the catches were designed to be a bolt-on solution using the same mounting points as the factory hardware. Now available with black hardware. US Patent No. D692,290.

Aluminum Hood Catch w/ Black Hardware	Part #
07-16 Wrangler, Textured Black	11210.17

WINCH HOOK HOLDER

The Rugged Ridge Winch Hook Holder provides a safe and secure location to store your winch hook when not in use, saving your bumper from dents and scratches. Constructed of stamped stainless steel and finished with a durable black semi-gloss powder coat, the hook secures to both Hawse or roller style fairleads and installs in minutes.

Winch Hook Holder	Part #
Universal Fit	15102.04

NAUTIC WINCHES

The Nautic Heavy Duty / Performance winches feature a durable 6.6 HP series wound motor for long life and impressive pulling power with an innovative X-braced gearbox housing and motor cap for increased strength. Solenoid, motor and gearbox achieve an IP68 rating so you can count on consistent performance regardless of the conditions. The tough 3-stage planetary gear box delivers power and reliability. Includes steel cable (Heavy Duty) or synthetic rope (Performance) and a powder-coated latch hook. Automatic load holding brake system (in the drum) provides exceptional control. Our Nautic Heavy Duty Series winches feature an exclusive light mount roller-style fairlead which allows for mounting up to two off-road lights for added safety and convenience, while the Nautic Performance Series winches include a durable aluminum Hawse-style fairlead. Tough, stainless hardware is used on the body of the winch to resist rust. Each Nautic Series winch includes a durable 12' all-weather cable remote controller and sturdy solenoid box that can be mounted in multiple positions and angles to accommodate various bumper configurations.

KINETIC ROPE

When it comes to preparing your rig for the next off-road adventure, don't forget to pack the essentials. Rugged Ridge® Kinetic Recovery Rope is easily one of the most effective products for successful vehicle recovery that you're likely to ever use. The defining difference is in the ropes elasticity, allowing it to stretch slightly, giving the pulling vehicle a growing momentum before transferring the pulling energy to attempts that result in the pulling vehicle breaking traction against the resistance of both vehicles and becoming immobilized, as well. Kinetic Rope allows for a smooth, gradual transition of load for convincing pulling power in even the most unstable terrain. Rugged Ridge Kinetic Ropes are 30' overall length to accommodate a wide array of recovery scenarios.

Kinetic Rope	Part #
Black w/ Red Trim, 30 Feet	11235.60

ROPE D-SHACKLE

Bring your recovery gear into the 21st century with Rugged Ridge® Soft Rope Shackles. Constructed of an ultra-strong HMPE rope material, these shackles are considerably stronger than steel with a 30,000 lb. breaking strength and, unlike nylon, they actually repel water, resist abrasions and have very low elasticity making them the obvious choice for off-road recovery. Unlike rigid steel shackles, Rugged Ridge Soft Rope Shackles are always pliable so they can be manipulated easily in tight spaces, even wearing gloves, allowing for painless attachment to tow hooks or recovery points. Better yet, Rugged Ridge Soft Rope Shackles won't ever rust, nor will they open under load however, they can be opened easily once a load is removed, making them an ideal addition to your off-road recovery gear.

Rope D-Shackle	Part #
7/16 inch, 7500 lb., Gray, Each	11235.50

D-RING ISOLATOR

Put an end to the loud clanging and banging of your d-ring shackles for good AND look great doing it! Rugged Ridge® D-Ring Isolators are designed to isolate all portions of recovery shackles from contacting your bumper, virtually eliminating the obnoxious noise from your off-road rig. Molded of energy-absorbing polyurethane, these D-ring isolators easily snap over the outer perimeter of your shackle providing complete protection from contact with nearby surfaces while the included urethane washers isolate between the shackle pin and the mounting tab for total coverage. Rugged Ridge D-Ring isolators are available for both 3/4 and 7/8 inch shackles and are molded in a variety of colors to suit your individual tastes or paint scheme: Black, Red, Green, Yellow and, yes, Pink. (Sold in pairs- 2 isolators / 4 washers)

ELITE HEADLIGHT GUARDS

When it comes to protecting your headlights, choose the best - the ELITE. Constructed of cast aluminum and finished in black textured powder coat, the Rugged Ridge Elite Series Headlight Guard will separate your rig from the crowd. Engineered to work with factory JK headlights as well as most manufacturers aftermarket lights, Rugged Ridge's geometric design is like no other. The Rugged Ridge Elite headlight guards are the perfect addition to your JK's grill and install in minutes. Patent Pending.

Elite Headlight Guards	Part #
07-16 Wrangler	11230.12

ELITE DOOR HANDLE INSERTS

Are you looking for a way to set your 07-16 JK apart from the rest? You need the Rugged Ridge Elite Door handle Inserts. Rugged Ridge Elite Door Handle Inserts are constructed of cast aluminum for outstanding durability and are available in three stunning versions - all Black aluminum, all Brushed Aluminum OR Brushed Aluminum with Black Inlay. Regardless of your color choice, Elite Door Handle Inserts are the perfect way to add a custom touch to your Jeeps exterior.

Elite Door Handle Inserts	2-Door	4-Door
Black Aluminum	13311.48	13311.49
Brushed Aluminum	13311.50	13311.51
Brushed Aluminum w/ Black Inlay	13311.52	13311.53

DOOR HANDLE INSERTS

Bring a little accent to your Jeep with the Rugged Ridge aluminum door handle inserts. Rugged Ridge Elite Door Handle Inserts are constructed of cast aluminum for outstanding durability and are available in four stunning versions - Black Aluminum, Brushed Aluminum, Red OR Paintable. These inserts install with ease and are secured with double-sided 3M Automotive tape. No sharp edges result in a comfort-fitting install.

Door Handle Inserts	2-Door	4-Door
Brushed Aluminum	13311.40	13311.41
Black	13311.42	13311.43
Red	13311.44	13311.45
Paintable	13311.46	13311.47

ELITE TAILLIGHT GUARDS

Are you looking for the perfect complement for the rear of your 07-16 JK? Look no further than the Rugged Ridge Elite Series Tail Light Guard. A stunning blend of Black Satin-textured Cast Aluminum and Brushed finishing details delivers unrivaled looks and equally impressive protection. Simple bolt-on installation with the included socket-head hardware and cast logo gives a smooth, finished appearance that looks great while the ingenious 2-piece design protects your tail lights like no other. Patent Pending.

Elite Tail Light Guards	Part #
07-16 Wrangler, Brushed Black	11226.04
07-16 Wrangler, Black	11226.05

ELITE FUEL DOOR

The Rugged Ridge Elite Series Fuel Door for '07-'16 Wrangler combines rugged styling, refined details and smooth mechanical operation into a fuel door that truly makes a lasting impression. Not just a cover for the factory JK fuel filler housing, the Rugged Ridge Elite Fuel Door cover replaces it with a sturdy cast aluminum housing fitted with a smooth-operating internal hinge and a positive retention latch that you press to open/ close. A fuel-resistant satin black textured finish and easy, no-drill installation will surely make you one of the ELITE. Patent Pending.

Elite Fuel Door	Part #

FAST TRACK ACCESSORY MOUNT

The Rugged Ridge Modular LED Bar Mount represents the ultimate in versatility for your 2007-2016 JK. The light bar utilizes integrated aluminum channels which allows for unlimited abilities to configure and reconfigure lights, trail mirrors, camera and accessory mounts, based on your changing needs. Constructed of high-quality 6061 T6 Aluminum and steel brackets, the Modular LED Light Bar is built to support the weight of full length light bars, curved or flat, or any variation of smaller lights you can dream up. Stylized end caps help to reduce the wind noise that is inherent with traditional light bars while delivering eye-catching looks. A durable black textured powder coat will keep your Modular Light Bar protected from the elements and looking great for years to come. Patent Pending.

Modular LED Bar Mount	Part #
07-16 Wrangler	11232.50

DUAL BEAM LED LIGHTS

All of the superior lighting abilities of an LED combined with a super-cool built in running light. Each 3-inch 10 watt Dual Beam LED is outfitted with 4 highly-efficient LED's for 900 lumens of nighttime illumination for the trail with a fifth amber-colored LED in the center of the optic lens that produces a softer light serving perfectly as a running lamp. The amber LED reflects on machined edges of the internal reflector causing a 'crosshairs' effect that will undoubtedly turn heads. Constructed of a unique thermoplastic housing and an unbreakable polycarbonate lens & frame, these LED's are virtually indestructible, even in severe off-road conditions. An IP67 waterproof rating gives consistent, reliable performance in the harshest of weather conditions. Stainless steel hardware and mounting bracket are included.

Dual Beam LED Lights	Part #
Square	15209.30
Round	15209.31

LED ROCK LIGHT KIT

Rugged Ridge® LED Rock Lights is a complete package to equip your Jeep® or off-road vehicle so that you can see and be seen when piloting the trails after dark. Designed with the off-roader in mind, the LED Rock Lights utilize waterproof aluminum LED housings for safe and reliable performance in all weather conditions. Each of the four white LED Rock Light circuits is fitted with weather-resistant connectors and combines using a sealed splitter for a clean installation and efficient operation. The kit includes four flat mounts and 4 curved mounts, allowing you to mount the LED's in a variety of locations depending on your application for greater versatility. Includes hardware and wiring instructions.

Rock Lights	11232.39
Rock Lights w/ Wiring Harness & Switch	11232.40

ALLOY XHD WHEEL, 17 x 8.5

These Euro-spec 17x8.5 hub-centric wheels are designed to exactly center the wheel over the hub. Providing the best fit possible and the proper clearance for brake rotors, steering components, and suspension. Better fit means no wheel vibration! A stainless steel button-head socket cap screws around the perimeter of the outer wheel face, giving it a great 3-piece look, and allowing you to accessorize with our optional trim ring. Each wheel includes a modular center cap. Rugged Ridge wheels are certified to meet/exceed SAE J2530 standards for wheel strength and durability. Backspacing is 5.17 inch with a +10mm offset, load rating is 2200 lbs and bore diameter is 71.5mm. US Patent No. D761,183.

Alloy XHD Wheel, 17x8.5	Part #
Satin Black	15301.60
Gun Metal	15301.61

LASER ETCHED ROCKER SWITCHES

Want to add a cool custom look to your rigs interior? These laser-etched rocker switches are designed to control all of your electrical lights and accessories with a sharp-looking laser-etched logo that identifies the lights function: Rock Lights, Off-Road Lights, Light Bar, Sasquatch Lights and even Zombie Lights! Switches are rated for 20 amps with amber LED illumination when the switch is in the ON position. Installation is simple with a 3 terminal hook-up allowing them to be used in virtually any Jeep, Truck, SUV or car.

Laser Etched Rocker Panel Switches	Part #
Rocker Switch, Zombie	17235.06
Rocker Switch, Rock Lights	17235.07
Rocker Switch, Sasquatch	17235.08
Rocker Switch, Off Road Lights	17235.09
Rocker Switch, Light Bar	17235.10

LOWER SWITCH PANEL

The Rugged Ridge Lower Switch Panel allows for practical & convenient installation of electrical switches in 2011-2016 Jeep Wrangler models, regardless of transmission type (Manual or Automatic). This switch panel replaces the lower center dash panel with an injection-molded panel made of an impact-resistant thermoplastic, matching the color and grain of the factory dash for a finished look. Each panel allows for the addition of up to 5 rocker style switches (available separately) for a variety of fits. Switches are positioned for easy access and effortless operation in your JK, while maintaining the factory correct appearance. (Use 17235.84 for a complete kit with lower switch panel and 4 colored rocker switches)

Lower Switch Panel	Part #
11-16 Wrangler	17235.54

LED INTERIOR LIGHTING SYSTEM

The perfect complement to any Jeep interior, Rugged Ridge LED Interior Lighting System contains everything you need to bring your interior to life with dazzling light. Multi-color acrylic LED tubes illuminate both front and rear passenger foot-well areas, as well as the rear cargo area, for total vehicle coverage. Integrated connectors, mounting clips and a built-in splitter make for a simple installation while the wired controller provides easy control of light functions and patterns with the push of a button. A built-in microphone with sensitivity adjustment lets the music control the light show for the ultimate visual experience.

LED Interior Lighting System	Part #
07-16 Wrangler	11250.09

BALLISTIC SEAT COVERS

Are you looking for a strong and durable seat cover, at an affordable price? The Rugged Ridge Ballistic seat covers are what you are looking for. Similar to our Ballistic-Pro version but instead of 1200-denier material, the Ballistic seat covers uses a durable 840-denier material and a unique ballistic weave that creates a strong cover.

Elite Ballistic Pro Seat Covers	Part #
07-10 Wrangler, Front, Black	13216.01
11-16 Wrangler, Front, Black	13216.02

MINIMUM 5 YEAR WARRANTY

C3 CARGO COVERS

Keeping you on the-go with ease, the patent pending rear Configurable Cargo Covers (C3) offer complete protection for the rear cargo area of your Jeep®. By protecting the carpet and plastic trim from damage, scratches, pet claws, dirt, and other debris, it'll stay looking pristine through all your daily tasks. A custom made and functional accessory for 2007-2016 Wranglers, this unique design also allows for a pet friendly space, ideal for your pet to rest during long off-road trips. Featuring water resistant material, the split fold feature allows for 40-60 rear seat lowering, and provides coverage with your rear seat up, partially or fully lowered—flexible and functional! A flip out cover flap keeps dirt from falling into the rear tailgate door gap. The built-in front curtain wall helps to keep items and pets from entering the front seat area. A unique side retention system insures the cover stays securely in place as you load or un-load. Easy to install and remove so you get protection when and where you need it. Patent Pending.

C3 Cargo Cover	Part #
07-14 Wrangler, 2-Door w/ Subwoofer	13260.04
07-16 Wrangler, 2-Door w/out Subwoofer	13260.03

C2 CANINE CURTAIN

Designed to work with the C3 Cargo Cover, the Cargo Curtain provides full top to bottom separation between the seats and the cargo area. Heavy Duty ballistic weave construction is built to give you years of use while the innovative design allows for easy installation and removal. Comes with a handy storage bag to keep the curtain protected when not in use.

C2 Canine Curtain	Part #
07-16 Wrangler, Front	13260.05
07-16 Wrangler, Rear	13260.06

ECLIPSE SUN SHADE - REAR CARGO

The Eclipse Cargo Barrier is designed to allow the open-top enjoyment while providing protection from harsh sunlight and wind for your rear seat passengers. Constructed of reinforced mesh with integrated bungee straps, this 3-piece barrier installs easily to your sport bar and tub rails in minutes for the ultimate in convenience. The Eclipse Cargo Barrier also helps keep your 4-legged Jeeps contained safely inside for added peace of mind.

Eclipse Sun Shade - Rear Cargo	Part #
07-16 Wrangler, 2-Door	13579.41
07-16 Wrangler, 4-Door	13579.42

RRC SIDE ARMOR GUARD PLATES

RRC Side Armor Guard Plates are the perfect addition for your RRC Side Armor (11504.20-.21) and Rocker Guards (11504.22-.23). Constructed of tough stamped steel with a sturdy black textured powder coat finish, the Side Armor Guard Plates give a solid platform to assist with vehicle entry that look great and are engineered to last. With stylish recessed vents and a cutout Rugged Ridge logo (fronts only) these guard plates are as good looking as they are functional.

RRC Step Plate	Part #
07-16 Wrangler, 2-Door	11504.24
07-16 Wrangler, 4-Door	11504.25

MESH RECOVERY GEAR KIT

When you are ready to hit the trails, make sure you are prepared for anything! When combined with a winch, Rugged Ridge's Premium Recovery Gear Kit has all of the necessities for effective vehicle recovery in one package, leaving you cool, confident and equipped for those times when things don't go as planned. Each kit contains a 30 foot 7/8" kinetic recovery rope, a pair of 7/16" soft rope shackles, 3" x 6 foot tree strap, a 20,000 lbs. snatch block pulley, high-visibility winch line dampener, a pair of rugged recovery gloves and a sturdy mesh recovery gear bag to keep it all together.

Mesh Recovery Gear Kit	Part #
Universal	15104.29

PIVOTAL LIGHT GUARD

The Rugged Ridge® Pivotal Headlight Euro Guard retains the classic off-road styling of the original headlight Euro Guard but benefits from being cast in solid aluminum for a lightweight, but seriously sturdy, option in headlight protection, on and off-road. The special design of the Pivotal Light Guard allows for the unit to be rotated on the headlight for a variety of looks. The angry attitude of the Spartan Grille is amplified by the angled light guards allowing you to make your own unique automotive expression. Pivotal Headlight Guards are available in two finishes to suit any taste- a textured black powder coat OR a rugged raw aluminum finish. Installs easily in minutes using factory hardware and replaces the factory headlight retaining ring. (Sold in pairs)

Pivotal Light Guard	Part #
Textured Black	11230.13
Raw Aluminum	11230.14

THIRD BRAKE LIGHT LED RING

If you have "lifted" your Jeep or have a larger-than-stock spare wheel and tire on the back, chances are your high-mount third brake light has either been deleted or is no longer as visible as it once was, making it less than effective. Rugged Ridge has the perfect solution to restore your Jeep to factory safety standards AND increase the cool factor at the same time! The Rugged Ridge Third Brake Light LED Ring adds a surprisingly brilliant ring of torch-red LED's behind your spare tire- guaranteed to grab the full attention of all who are near. Designed to work with various rim diameters from 15 to 20-inches on Jeep CJ / YJ / TJ and JK models having either a 5 on 4.5" or 5 on 5" bolt pattern. Fitted with waterproof connectors, this Third Brake Light LED Ring is built to withstand the elements for consistent all-weather performance. Imagine a world where nobody can ever say "I didn't realize he was stopping".

Third Brake Light LED Ring	Part #
Jeep® Models w/ 15-20" Rim Diameter	11585.04

DUAL BATTERY TRAY

Equipping your JK to handle the power demands of off-road lights and accessories has never been easier. Don't let the drain of winches, lights and compressors leave you stranded. Installing a dual battery tray in your rig enables you to virtually double your powering capability, preserving precious power in reserve for crucial engine starts. Rugged Ridge's Dual Battery tray for 12-16 JK is constructed of heavy-gauge steel plate for strength and durability and is finished in gloss black powder coat for lasting good looks. Tray includes mounting hardware and battery retaining straps for a secure installation. For optimum performance, we recommend a Dual Battery Isolator (17265.01) be installed for proper charging and isolation of the secondary battery during normal operation.

Dual Battery Tray	Part #
3.6L 12-16 Wrangler	11214.54

RENEGADE HEADLIGHT GUARDS

Rugged Ridge® Renegade Headlight Guards are a great way to set your Renegade apart from the crowd. Constructed of high-strength steel for superior headlight protection and finished with a textured black powder coat for a durable finish, the Renegade Headlight Guards install in minutes with the included automotive double-sided adhesive. (Sold in pairs)

Renegade Headlight Guards	Part #
15-16 Renegade	11230.20

RENEGADE TAILLIGHT GUARDS

Add a stylish touch of off-road inspired protection to the iconic Renegade tail lights with Rugged Ridge® Renegade Taillight Euro Guards. Constructed of sturdy steel to provide real-world protection for your lights, while not detracting from the lens design that sets the Jeep® Renegade apart from the rest. Each guard is finished in a sleek textured black powder coat that will look great on or off-road for years to come. Installs easily in minutes with the included double-sided adhesive.

Renegade Taillight Guards	Part #
15-16 Renegade	11226.30

CB RADIO WINDSHIELD MOUNT

The CB Radio Windshield Mount conveniently installs over the rearview mirror for an easy reach. Made from durable black powder coated steel, now your CB is attached high and within reach without having to take your eyes off the road or trail.

CB Radio Windshield Mount	Part #

SPARTACUS TIRE CARRIER

The Spartacus HD Tire Carrier System for 97-06 Wrangler TJ/LJ delivers the perfect balance of strength & stability, allowing you to carry up to a 37" tire & wheel combo without all the extra weight of steel bumper-mounted tire carriers. The Spartacus HD Tire Carrier incorporates a brutally strong die-cast aluminum hinge casting with forged steel hinges and hardened steel pins that replaces the feeble stock tailgate hinges for greater load-bearing capacity while still allowing smooth, one-handed tailgate operation to access the cargo area. The HD Tire Carrier Wheel Mount is sturdy 6mm thick steel with a variable position lug plate that allows for adjustment of depth and angle to suit your spare, regardless of wheel backspacing, and also retains / repositions the factory high mount brake light. Both the hinge casting and wheel mount are protected with a durable black textured powder coat to protect it from even the harshest off-road conditions. Compatible with OE and most aftermarket rear bumpers, the HD Tire Carriers patent-pending design makes it the most versatile and functional tire carrier on the market today. No drilling required.

Spartacus Tire Carrier	Part#
97-06 Wrangler	11546.61
